CHATSHOP AI · EMI & BILLING

Panel Guide: kaun kya dekh aur kar sakta hai

Har login par kaun se pages khulte hain, kya sirf dekhne ke liye hai, aur kya badla ja sakta hai. Menu wahi dikhata hai jo role kar sakta hai, aur server bhi baaki sab block karta hai.

Ek nazar me

Chaar tarah ke panel hain. Shop ke log `/login` se aate hain, admin `/admin/login` se.

Shop owner
/login
Poora ChatShop aur EMI & Billing, saare stores. Sab kuch badal sakta hai.

Shop staff
/login
Sirf apna kaam: My work dashboard aur apne role ke pages. Approval shop owner deta hai.

Super Admin
/admin/login · main password
Saari shops ka data. Shops approve karna, suspend, staff jodna, rules, audit, jobs.

Limited Admin
/admin/login · apna email
Apne naam se login. Saari shops ka EMI data, sirf dekhna.

1. Shop owner

Owner ko apni shop ki har cheez dikhti hai, saare stores ki.

ChatShop ke pages (pehle jaise)

Overview, Messages, Orders, Customers, Products, Analytics, Settings.

- **Orders:** store ki har sale yahan bhi dikhti hai, "Store" badge ke saath. Isliye Dashboard aur Analytics me bhi gini jaati hai.
- **Orders → New order me EMI:** Payment me **EMI (Shop EMI)** chuno. Store, phone ka IMEI, down payment, kitne mahine, interest daalo; KYC verified na ho to PAN daal kar wahin verify karo. Mahine ki EMI dikhte hi "Create order on EMI" se order banta hai: GST invoice, EMI contract aur order teeno ek saath. Order apna WhatsApp/Instagram channel, address aur notes rakhta hai aur "Confirmed" se shuru hota hai. Aise order ko Orders se ship kar sakte ho, par cancel sirf invoice se hota hai.
- **Products:** form me HSN code, GST rate aur "Sold by IMEI" ke fields hain.

EMI & Billing: 10 pages

PAGE	KYA HAI
Billing overview	Aaj ki sale, aaj ka EMI collection, EMI book, overdue, 14 din ka chart, dhyan dene layak kaam
New sale	4 step: customer aur KYC, IMEI chun kar cart, payment (Full payment ya Shop EMI); customer ka KYC yahin verify hota hai, review aur confirm
Invoices	Saare GST invoices, print, cancel ki request

PAGE	KYA HAI
EMI collections	Aaj due, overdue, DPD buckets. Contract kholne par schedule, collect, waiver, foreclosure, follow-up, agent assign
Stock & IMEI	Stock summary: har product kitna bacha, kitna bika, stock ki value, low / out of stock. IMEI se maal receive karna, units ki list, HSN aur GST
Approvals	High EMI, late fee waiver, foreclosure aur invoice cancel ko approve ya reject karna
Payments	Saare receipts; card/UPI ko "settled" mark karna
Accounts & GST	GST summary, trial balance, journal, CSV download
Staff	Do tab: **Staff** aur **Roles**. Store Admin, Cashier, Accountant, Agent ya owner ke apne banaye role wale logins. Owner jo staff banata hai wo turant login kar sakta hai; Store Admin ka banaya staff owner yahin Approve / Reject karta hai. Kisi bhi staff ka role ya store kabhi bhi badal sakte hain
Billing settings	Shop details, Stores, EMI rules, Reminder log

2. Shop staff

Staff ko sirf apne role ka kaam dikhta hai: login par **My work** dashboard, aur menu me sirf neeche "Haan" wale pages. Baaki koi page (Messages, Orders, ya doosre role ke billing pages) kholne ki koshish karein to My work par wapas aa jaate hain. Topbar me search ki jagah unka store dikhta hai, aur avatar menu me "My account" se wo apna password badal sakte hain.

Haan use kar sakta hai Sirf dekhna padh sakta hai, badal nahi sakta Nahi page dikhta hi nahi

PAGE	STORE ADMIN	CASHIER	ACCOUNTANT	AGENT
My work	Haan apni sale, low stock	Haan apni sale, EMI receipts, low stock	Haan settlement, aaj ka collection, GST	Haan assigned, aaj due, overdue
Billing overview	Haan	Nahi	Nahi	Nahi
New sale	Haan list price se kam par bhi	Haan sirf list price par	Nahi	Nahi
Invoices	Haan	Haan	Sirf dekhna	Nahi
EMI collections	Haan	Haan	Nahi	Haan sirf assigned contracts

Accounts & GST	Haan	Nahi	Haan	Nahi
Staff	Haan apne store ka staff; owner approve karega	Nahi	Nahi	Nahi
Billing settings	Haan apne store ke rules	My account sirf password	My account sirf password	My account sirf password

Sirf apna kaam: har staff ko login ke baad apna **My work** dashboard milta hai aur menu me sirf upar "Haan" wale pages. Koi doosra page URL type karke bhi nahi khulta, wapas My work par aa jaata hai; server bhi har call check karta hai. **Agent:** EMI collect aur follow-up, sirf apne assigned contracts par. **Maker-checker:** jo request bhejta hai wo khud use approve nahi kar sakta; sirf shop owner apni request khud approve kar sakta hai.

Apne roles (owner khud banata hai)

Upar ke 4 roles ke alawa owner **Staff** → **Roles** → **New role** se apna role bana sakta hai: naam khud rakhta hai (jaise "Counter helper", "Stock manager") aur tick karta hai ki ye role kya kaam karega.

KAAM (TICK)	STAFF KO KYA MILTA HAI
Billing overview	Store ki sale, EMI book, overdue
New sale	List price par invoice aur Shop EMI sale; Invoices aur EMI page bhi khulte hain
See invoices	Invoice dekhna aur print karna
EMI collections	EMI collect karna aur follow-up (store ke saare contracts)
See stock / Receive stock	Stock summary aur IMEI list / IMEI se maal jodna, HSN-GST badalna
Approve requests	High EMI, waiver, foreclosure, cancel approve karna
Payments	Payments dekhna aur card/UPI settle karna
Accounts & GST	GST summary, trial balance, journal

Role me badlav turant us role wale har staff par lag jaata hai. Jis role ko koi staff use kar raha hai wo delete nahi hota, pehle staff ka role badlo. Staff, stores aur settings sambhalna sirf owner aur Store Admin ka kaam hai, ye kisi custom role ko nahi milta. Store Admin ye roles apne store ke staff ko de sakta hai, par naya role nahi bana sakta.

3. Super Admin panel

Sidebar: Overview, Shops, Orders, Customers, Products, Messages, Analytics, Billing, **EMI & Billing**, Settings, Security.

Audit log aur Jobs ko Super Admin tak isliye rakha hai kyunki baaki ChatShop me bhi audit log sirf Super Admin ke paas hai. Server bhi limited Admin ke har badlav ko 403 se rok deta hai.

5. Setup

Har panel ka login kaise banta hai aur chalane ke liye kya chahiye.

- **Shop owner:** ChatShop par normal sign-up karta hai. EMI & Billing pehli baar kholne par request Super Admin ke paas jaati hai, aur tab tak "Waiting for Super Admin approval" dikhta hai. Approve hote hi uski shop aur pehla store khul jaata hai.
- **Staff:** owner (ya Store Admin, apne store ke liye) EMI & Billing → **Staff** se login banata hai aur role deta hai. Owner ka banaya staff turant normal `/login` se login kar sakta hai. Store Admin ka banaya staff "Waiting for owner" rehta hai jab tak shop owner Staff page par **Approve** na kare; Reject karne par kaaran login par dikhta hai. Owner kisi bhi staff ka role ya store kabhi bhi badal sakta hai. Super Admin **Staff** → **Add staff to a shop** se seedha bhi bana sakta hai, wo pehle se approved hota hai.
- **Limited Admin:** Super Admin, Security → **Admin accounts** me har admin ka naam, email aur password banaye. Admin `/admin/login` par apne email se aata hai aur use apna hi naam dikhta hai. Purana shared "Admin panel password" ab bhi chalta hai, lekin wo "Admin" naam se dikhta hai.
- **MongoDB:** sale ka sab kuch ek saath save ho (transaction) iske liye replica set chahiye. Atlas me ye pehle se hota hai.
- **Code:** branch `invoice-EMI`. Backend `backend/src/emi/`, screens `frontend/src/pages/billing/`.
